Standards:		RoHS2 2011/65/UE - 2002/95/EC CEI 20/37 and CEI 20-22/II*				

Connectors

Products description

Tasker ha ampliato la sua gamma di cavi microfonic introducendo nuove guaine in diversi materiali, così da rendere possibile la realizzazione di moltissime applicazioni differenti. Oltre alla normale guaina in PVC i nostri clienti possono scegliere tra guaine in L.S.Z.H. (Low Smoke Zero Halogen) per installazioni in luoghi pubblici, guaine in Poliuretano (PUR) o in Polietilene (PE) per usi OUTDOOR e specialissimi cavi armati in acciaio per impianti interrati non protetti o con presenza di roditori. Il primo articolo Tasker ad essere disponibile in tutte queste varianti è il nostro cavo microfonico più amato e richiesto, ovvero il C128.

Tasker extended its range of microphone cables by introducing new sheaths in different materials to allow the realization of various applications. In addition to the common PVC sheath our customers may chose among L.S.Z.H. (Low Smoke Zero Halogen) sheaths for public installation, Polyurethane (PUR) or Polyethylene (PE) for OUTDOOR installation and special armored cables for underground installations in rodents presence. Tasker first article to be available in all these versions in our most requested and sold microphone cable: C128.
